Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17-21, 28 and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Safir (US 5665175).

Regarding claim 17, Safir discloses a process for making a photovoltaic device using a substrate comprising silicon doped with a first dopant, the process comprising the steps of:

(a) forming a first layer (4, Fig. 3) of the substrate at a front surface and at least one edge surface, the first layer comprising a second dopant of a conductivity type opposite the first dopant (Cols. 3-4);

(b) disposing over the first layer a surface coating (3, Figs. 3-4) such that a back surface of the substrate is free or substantially free of the surface coating (Cols. 3-4 and 7, *note original layer 3 is replaced by silicon nitride or other material for specific barrier layers Col. 7, lines: 10-20*); and

(c) removing the second dopant from the back surface such that the back surface is free or substantially free of the second dopant (Fig. 4 and Cols. 4-5).

Regarding claim 18, Safir further discloses the step of texturing the substrate (112, Fig. 1 and Col. 3).

Regarding claim 19, Safir further discloses removing the texture from the back surface such that the back surface is substantially smooth (Fig. 4).

Regarding claim 20, Safir further discloses the step of forming a back surface field (10, Fig. 6 and Cols. 5-6).

Regarding claim 21, Safir further discloses wherein the surface coating comprises silicon nitride (Col. 7, lines: 15-20).

Regarding claim 28, Safir further discloses wherein the surface coating is formed such that only a back surface of the substrate is free or substantially free of the surface coating (Fig. 4).

Regarding claim 31, Safir further discloses wherein, in the step of disposing over the first layer a surface coating such that a back surface of the substrate is free or substantially free of the surface coating, the surface coating is also formed on the periphery of the back surface (Fig. 4).

### ***Response to Arguments***

Applicant's arguments with respect to claims 17-21 and 28 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
